THE MEANING OF KETURAH

KETURAH is an Arabic word for the fragrance traditionally
diffused throughout the home to welcome guests,
a subtly poetic gesture.

THE BRIEF

Dubai is the capital of innovation, one of the most dynamic and exciting cities in the world.

Equally, Keturah Reserve at Meydan is the most innovative and exciting New Luxury development in Dubai, with a brand-new concept, transformational living through the design of space.

BIO LIVING AT KETURAH RESERVE

Bio Living is inspired by Biophilic Design, the concept of creating architecture and interiors to enable residents to connect with the surrounding nature. All five human senses are engaged by nature, improving physical and mental well-being and adding real value to resident's lives.

THE FIRST NEW LUXURY BIO LIVING RESIDENTIAL DEVELOPMENTS IN THE MIDDLE EAST

Dubai is the capitol of innovation, one of the most dynamic and exciting cities in the world.

Equally, Keturah Reserve at Meydan is the most innovative and exciting New Luxury development in Dubai, with a brand-new concept, transformational living through the design of space.

BIO LIVING RESPECTS ALL
LIFE FORMS, FLORA,
FAUNA AND HUMAN

Bio Living respects all life forms equally, flora, fauna and human. Living in harmony with nature, we heal, restore and regenerate.

WHY DUBAI

Dubai is the City of the Future, one of the most exciting, inspirational and successful cities in the world, the global headquarters of crypto currency in DMCC.

Its thriving expat community of over 200 nationalities comprises 80% of the population. Dubai is a pioneer for future urban living with sustainable development an integral part of its Green 2040 Vision.

THE STORY OF MEYDAN

Meydan is an Arabic word for an open, urban forum for public discussion that traces its origin to the Ottoman Empire.

Keturah Reserve at Meydan is one of Dubai's most exclusive addresses. Meydan is a new sustainable and environmentally friendly development owned by his Highness Sheikh Mohammed bin Rashid Al Maktoum.

It encloses the world-renowned Meydan Racecourse and Grandstand, home of the Dubai World Cup horse racing event.

KETURAH RESERVE AT MEYDAN

Keturah Reserve is uniquely located at Meydan, the only residential development in Dubai with a direct 9-minute link to Downtown, with four separate exits onto the city's main thoroughfares.

AQUA BIKE

As with the architecture, activities on offer at Keturah Reserve such as the WaterBike Pool, Pilates Studio, Silk Rope classes, rooftop meditation and yoga space, are designed to develop and strengthen the body's core from the inside out.

A person is seen from behind, sitting in a meditative lotus position on a light-colored floor. They are positioned in the center of a large, open-plan space with high, white, textured walls and a vaulted ceiling. The space opens up to a large window that looks out onto a lush, green landscape with several trees and a bright sun low on the horizon, creating a warm, golden glow. The overall atmosphere is serene and minimalist.

INVIGORATE SPACE

The meditation and yoga at the Invigorate Space, to develop and strengthen the body's core from the inside out.

INDOOR KIDS PLAY AREA

The indoor Play Space with textile playground sculptures by the award-winning artist, Toshiko MacAdam

KETURAH RESERVE SUPERHOMES, DESIGNED FROM THE INSIDE OUT

Keturah Reserve Superhome apartments are fully furnished and open plan without corridors or hallways, optimizing the flow of passage. Furniture and fixtures are custom-designed for each space. They blend perfectly into the interior, freeing the flow of movement, and elevating the resident's physical and mental well-being.

Both the interior and exterior facades are crafted from the same raw materials and colours to subtly merge the architecture with the surrounding desert landscape. Travertine, wood and bronze link inside with outside, as does the restrained color palette of bleached bone, champagne and bronze.

When daylight fades, architectural lighting optimizes the body's circadian system, enhancing mood, comfort and alertness, creating a subtle and healing atmosphere and improving the quality of sleep.

Keturah Reserve Superhome apartments are angled to capture natural daylight, gently diffusing it throughout the interior without heat or glare

NATURAL SUSTAINABILITY AT KETURAH RESERVE

Keturah Reserve is designed to be naturally self-sustaining from inception.

- The microclimate of Meydan was studied in depth with particular attention to the strongest heat source to align the temperature, humidity, air conditioning and ventilation to enable the building to be self-sustaining.
- Materials were selected specifically for their adaptability to Meydan's microclimate.
- Floorplans are created based on established measurements to avoid manpower waste and material offcuts through resizing.
- Very high ceilings, wall thickness and windowpane density were designed to cool the interior naturally, saving energy by reducing the need for air conditioning.
- Amenities are easily accessible by foot on tree-shaded pathways, eliminating the need of driving from home to place.
- Balconies are wider than the norm to reduce the heat and glare of direct sunlight.
- Wood is fired no fewer than six times, to increase endurance and resistance to wear and tear.

New Luxury integrates sustainability naturally without the need of further human involvement.

THE FLOW OF AIR, LIGHT, COLOUR, SPACE, TEXTURE AND MATERIAL

The Invisible components of our daily lives, air, light, colour and space are vital in maintaining and restoring our physical, mental and emotional well-being

THE FLOW OF AIR

Keturah Reserve homes are designed with double volume interior spaces, naturally increasing the flow of air. Keturah Reserve's super-efficient VRF (Variable Refrigerant Flow) technology reduces energy costs, improves residents' comfort, and sends cooled air to evaporators in different spaces, maintaining an even, consistent temperature by zone. The air filtration system silently eliminates pollen, cooking odors and smoke, continuously purifying and refreshing the air.

THE FLOW OF LIGHT

The architecture of Keturah Reserve is designed to optimize natural daylight without its heat or glare. When daylight fades, architectural lighting optimizes the body's circadian system, enhancing residents' mood, comfort and alertness, and improving the quality of their sleep.

Lighting is always lateral, never directly overhead, to optimize visual comfort, enhance the space and create atmosphere by zone, for a subtle and healing ambience

THE FLOW OF COLOUR

The architecture of Keturah Reserve homes blends into the rawness of the desert landscape, to create an ambience of solace and serenity. The bleached bone-coloured travertine facade links the exterior to the interior, with bronze vertical slats creating a subtle interplay of light and shade.

The three cool-neutral tone-on-tone palette of cream, champagne and bronze, and three textures of wood, stone and metal, are inspired by the natural colours and textures of the surrounding desert.

THE FLOW OF SPACE

Keturah Reserve homes are conceived and designed from the inside out using contemporary architectural principles of the five elements, proportions, ratio and daylight, in raw, natural materials.

The double volume open plan spaces optimize the flow of passage, without corridors or hallways. Furniture and fixtures are custom-designed for each residence and produced for each space.

They blend perfectly into the interior, freeing the flow of residents' movement, and elevating their physical and mental well-being.

THE FLOW OF TEXTURE AND MATERIAL

The project's design began with the selection of textures, glass, travertine, wood and metal. Raw materials are selected to correspond with the flow of energy. Perfect individually, they interplay and exchange energies when placed together.

THE FINISHES AND TOUCHES

FRAMELESS SLIDING DOOR

WHITE TRAVERTINE TILES

The white travertine facade links the outside to the inside, with the vertical metal slats creating a play of shadow and intimacy.
